

## Configuração 2FA (Verificação de duas etapas)

### Abra o Gmail

### Clique no usuário

## Clique em Gerenciar Conta do Google

## Clique em Segurança

## Clique em Verificação em duas etapas

## Redigite a sua senha

## Clique em Authenticator

## Clique em Configurar o autenticador

## Será solicitado a leitura do QRcode com o App Google Authenticator

No celular, caso não tenha o app, baixe o Google authenticator

Entre na Apple Store (Iphone) ou Play Store (Android) e busque por “Google Authenticator”

### Abra o App, marque adicionar um código

### Será solicitado usuário e senha novamente

## Clique em Adicionar um Código

## Clique em ler QR code

## Leia o QR Code e Clique em avançar

**Após ler o QR Code verifique o código no app**

## Digite o código que aparece no APP Google Authenticator

## Clique em verificar

## Clique em Ativar

## Clique em Ativar a verificação em duas etapas

## Clique em Concluir
